Principal Contents of Volume 47, 1977

JANUARY/FEBRUARY

Presidential Address. PERCY A. ALLAWAY, C.B.E. 3
Circular polarization in radars. A. B. SCHNEIDER and P. D. L. WILLIAMS 11
Picture recognition and analysis. Professor J. R. ULLMANN and Professor A. ROSENFELD 33
The physical basis of signal theory. R. BENJAMIN 49
Round-off error analysis in digital m.t.i. processors for radar. A. HADJIFOTIOU 59
Design and characterization of a phase-locked v.h.f. land mobile receiver. J. P. McGEEHAN 67
Introduction of a sharp steerable null response in an otherwise omni-directional pattern using a circular array. J. C. LIM 30

MARCH

Forty Years in Retrospect. P. A. ALLAWAY, C.B.E. 89
Micro-APP: a building block for low-cost high-speed associative parallel processing. R. M. LEA 91
The use of phase-control height diversity for 11 GHz digital radio system. E. G. JARVIS 101
A new sub-bottom profiling sonar using a non-linear sound source. P. PETTERSEN, J. M. HOVEM, A. LOVIK and T. KNUDSEN 105
A digital instrument with histogram output. T. J. TERRELL and E. T. POWNER 112
A phase-locked-loop phase-shifter for band-limited signals. D. ROUTLEDGE and J. F. VANELDIK 117
Superselectivity in the azimuth and frequency dimensions. R. BENJAMIN 121

APRIL

Millimetric Waveguides for Telecommunications 141
Practical realization of superdirective arrays. H. SALT 143
Domain tip memories. C. BATTAREL and M. HANAUT 157
P.a.m.-microwave transmission in coloured Gaussian noise environment. K. FEHER and J. HUANG 167
Optimal codes for digital magnetic recording. J. C. MALLINSON and J. W. MILLER 172
Microwave diffraction for steel strip detection. R. J. TEPEREK and G. S. HOBSON 164
Marine radar today—a review. A. HARRISON 177

MAY

Technology and the Annan Committee. G. D. SIMS 193
Noise equalization in h.f. receiving systems. D. C. BUNDAY 195
Mobile radio frequency synthesizers based on surface acoustic wave oscillators. P. M. GRANT, K. M. HUSSAIN, R. C. CORNER and J. H. COLLINS 209
A low distortion tri-wave to sine converter. W. A. EVANS and V. SCHIFFER 217
Radar signal loss resulting from sub-optimal phase quadrature processing. G. C. BAGLEY 207
Broadband RC-loaded microwave cylindrical antenna with approximately real input admittance. DJ. S. PAUNOVIC and Professor B. D. POPOVIC 225
Synthesis of broadband cylindrical monopole antenna with parasitic elements. Professor B. D. POPOVIC, M. B. DRAGOVIC and A. R. DJORDJEVIC 229
Experimental direct broadcast reception of 12 GHz television signals from the Canadian Communications Technology Satellite. K. G. FREEMAN 233

JUNE

And now, the next 25 years! 247
Optimum pulse shaping application of binary transversal filters used in satellite communications. K. FEHER, M. EL-TORKY, R. DE CRISTOFARO and Professor M. N. S. SWAMY 249
A novel least-square Fourier algorithm for decomposition of discrete, non-equidistant data. M. BOUTHEON, V. CHOHAN and J. P. POTIER 257
Tracer decoder—a receiver for radio navigation relay systems. J. D. LAST and E. W. ROBERTS 261
Simplified solutions of a cross-junction and specially truncated bends in parallel-plate waveguides. M. F. ISKANDER and M. A. K. HAMID 269
The temperature dependence of the low-frequency characteristics of junction field-effect transistors. J. B. GRIMBLEBY and G. S. SANGHERA 277
The transfer function synthesis of LC ladder networks. S. C. PRASAD and Y. K. YADAV 274
Future telecommunication services. A. A. L. REID 283

JULY

Encouragement for the Components Industry .. 301
The application of microprocessors to main frame design. Professor M. V. WILKES .. 302
A digital high frequency multipath propagation simulator. W. MATLEY and R. E. H. BYWATER .. 305
Analysis of insertion loss repeatability of coaxial connectors. P. PAKAY and A. TOROK .. 315
The design of easily tested circuits using mapping and spectral techniques. C. R. EDWARDS .. 321

AUGUST/SEPTEMBER

Intelligent Machines. J. R. PARKS .. 353
Intelligent machines—commercial potential. J. R. PARKS .. 355
Machines that understand speech. M. J. UNDERWOOD .. 368
The prospects for sensory arrays and microprocessing computers in manufacturing industry. A. PUGH and K. WADDON .. 377
Experiments in visually-controlled flexible automation. J. A. WEAVER .. 385
Social implications of intelligent machines. MARGARET A. BODEN .. 393
Medicine is more than just medicine. G. H. BYFORD .. 400
Annual Report of the Council for 1976–1977 .. 409

OCTOBER

99 Gower Street .. 433
The application of m.f.s.k. techniques to h.f. telegraphy. J. D. RALPHS .. 435
RC active variable group-delay equalizers with independent Q and ω controls. G. WILSON .. 445
Design of self-checking and fault-tolerant microprogrammed controllers. IAN WILLIAMSON .. 449
Developing interactive systems for the small machine environment. GILL RINGLAND .. 455
A method for the determination of the T-equivalent-circuit parameters of microwave structures. G. GHOSH and Professor B. R. NAG .. 460
Automatic input attenuator for h.f. communication receivers. DURK VAN WILLIGEN .. 465
Recent trends in automative radar. R. D. CODD .. 472

NOVEMBER

Engineering under the Microscope .. 487
Terminal and repeater equipment for the first operational waveguide system. N. D. KENYON .. 489
Functional decomposition on multi-microprocessor systems. K. D. BAKER .. 497
Dynamic testing of control systems. Professor D. R. TOWILL .. 505
The implications of microprocessor architecture on speed, programming and memory size. B. K. PENNEY .. 522
Degradation in the efficiency of medium-size parabolic antennas with propagation conditions. W. G. BURROWS 529

DECEMBER

Energy in Crisis. M. S. BIRKIN .. 543
The channel electron multiplier and its use in image intensifiers. A. W. WOODHEAD and R. WARD .. 545
Television signal-to-noise ratio before and after demodulation. B. W. OSBORNE .. 555
Experiments on the writing process in magnetic recording. GEOFFREY BATE and LARRY P. DUNN .. 562
New displays for old radar. T. W. WELCH .. 571
The television colour burst signal as a secondary frequency standard. C. A. JENNESS and R. A. MORRIS .. 567
Report of the Annual General Meeting .. 579

Subject Index

Papers are denoted by printing the page numbers in bold type

ERIALS
Introduction of a sharp steerable null response in an otherwise omni-directional pattern using a circular array **30**
Superselectivity in the azimuth and frequency dimensions **121**
Practical realization of superdirective arrays **143**
Broadband RC-loaded microwave cylindrical antenna with approximately real input admittance **225**
Synthesis of broadband cylindrical monopole antenna with parasitic elements **229**
Degradation in the efficiency of medium-size parabolic antennas with propagation conditions **529**
Airborne microwave relay system for Nigeria 479
Aluminium foil provides radar protection 407

nalysis of insertion loss repeatability of coaxial connectors **315**

NNOUNCEMENTS
The professional engineer 74
New executive secretary of the Royal Society 74
Index to Volume 46 74
MacRobert Award withheld for 1976 74
Corrections 74
CEI examination entries for next year 131
Nominations for 1977 John Smeaton Medal 131
CEI secretaries committee 131
New Zealand Division 131
CEI opposes government inquiry on engineering profession 132
Appointment of the new Secretary of the IERE .. 132
Queen's Silver Jubilee Award 133, 184
CEI Chairman and Vice-Chairman for 1977/78 .. 133
1979 World Administrative Radio Conference 133
Oceanology International 78 133
World Energy Lecture 184
Personal services for engineers 184
New section in Hong Kong 184
Professional engineers' contribution to industry 184
Practice 'slow morse' transmissions 185
New CEI statement on academic requirements 185
Association of Learned and Professional Society Publishers 185
Channel Islands Group of Professional Engineers .. 185
That academic test—a further explanation 237
New director of the Appleton Laboratory 237
IEE conference publications 237
Mr. F. W. Appleby 237
Silver Jubilee Exhibition in Hyde Park 290
Applications of charge-coupled devices 290
The HND and its future 290
Institution premiums for 1976 343
The Institution's library 343
Institution meetings for the 1977/78 session 343
Health and safety and the engineer 343
Preparation for the CEI Part 2 academic test 345
Engineering profession inquiry 345
New director for National Physical Laboratory .. 425
Move to new IERE Headquarters 425
Vice-Chairman Designate for CEI 425
New members elected to CEI 425
ICI diagnostic techniques prize 425
Part-time degrees for technician engineers 425
The engineering of microprocessing systems 426
IBC 78 426
Engineering industry training levy order 477
New chairman for MacRobert Award committee .. 477
Change of name for Mullard Research Laboratories .. 477
Software reliability problems 477
Trade unions and the professional engineer 477
New presidents of the institutions 477
Electronics technicians' salaries in 1977 477
Computer aided production management scheme for small firms 477
The Presidential Address 535
Graham Clark Lecture 535
Professional engineers and trade union recognition .. 535
New advisory service for the engineering industry .. 535
BIMCAM, CAMA and SIMA forge closer links .. 535
National Electronics Review 583
Israel Section Meeting 583
Incentives for instrumentation and automation 583
Conference on Measurement and Control in the Handling and Processing of Materials 584
IERE Conference on 'Microprocessors in Automation and Communications 584
Reduced rates for IEE publications 585
Royal Society Mullard Award 585

Annual Report of the Council of the Institution, 51st .. 409
Applicants for Election and Transfer .. 85, 138, 192, 244, 300, 350, 430, 484, 540, 594
The application of m.f.s.k. techniques to h.f. telegraphy **435**
The application of microprocessors to main frame design **302**
Ariel V working well two years after launch 66
Automated printed-circuit design 479
Automatic input attenuator for h.f. communication receivers **465**

BBC engineering design information 540
Belated tribute to a genius: Alan Dower Blumlein, 1903–42 345
Benevolent Fund Trustees' Report and Accounts for 1975–76 350

BEDS AND HERTS SECTION
Electronics in medicine 88
Annual General Meeting 88
Instruments of the new music 88, 140
Automobile electronics—some aspects of research 352, 432, 485
Electronic calculators—past and current technology 432, 485, 541
Quadraphonics 541, 595
Seismic methods as applied to North Sea oil exploration 595

Broadband RC-loaded microwave cylindrical antenna with approximately real input admittance **225**

CEI NEWS
Programme for implementing constitutional changes in CEI 75
CEI's comments to ACAS on draft codes and to Minister on pensions white paper 75
CEI meeting with MPs 75
CEI to investigate innovation in industry 242

The channel electron multiplier and its use in image intensifiers **545**

CIRCUIT TECHNIQUES
A phase-locked-loop phase-shifter for band-limited signals **117**
Mobile radio frequency synthesizers based on surface acoustic wave oscillators **209**
A low distortion tri-wave to sine converter **217**
Optimum pulse shaping application of binary transversal filters used in satellite communications .. **249**
The transfer function synthesis of LC ladder networks **274**
Analysis of insertion loss repeatability of coaxial connectors **315**
The design of easily tested circuits using mapping and septral techniques **321**
RC active variable group-delay equalizers with independent Q and ω controls **445**
A method for the determination of the T-equivalent-circuit parameters of microwave structures **460**

Automatic input attenuator for h.f. communication receivers .. 465

Circular polarization in radars: an assessment of rain clutter reduction and likely loss of target performance .. 11
Collision course .. 585
Colloquium Report—The Future of Higher Diplomas .. 238
Colloquium Report—Printed Circuit Wiring .. 424
Colloquium Report—Recent Developments in Data Modems .. 297
Colloquium Report—Technicians and Technician Engineers in the Electronics Industry .. 81
Colloquium Report—Testability and Testing Technology .. 186
Colloquium Report—Training Technicians in Electronics .. 592

COMMUNICATIONS
The physical basis of signal theory .. 49
The use of phase-control height diversity for 11 GHz digital radio systems .. 101
P.a.m.-microwave transmission in coloured Gaussian noise environment .. 167
Future telecommunication services .. 283
Microwave radio system for Bolivia .. 296
A digital high-frequency multipath propagation simulator .. 305
The application of m.f.s.k. techniques to h.f. telegraphy 435
Airborne microwave relay system for Nigeria .. 479
Terminal and repeater equipment for the first operational waveguide system .. 487
Troposcatter communication in the North Sea .. 554

COMPUTERS
The application of microprocessors to main frame design 302
The prospects for sensory arrays and microprocessing computers in manufacturing industry .. 377
Design of self-checking and fault-tolerant microprogrammed controllers .. 449
Developing interactive systems for the small machine environment .. 455
Functional decomposition on multi-micro-processor systems .. 497
The implications of microprocessor architecture on speed, programming and memory size .. 522

CONFERENCES
IBC '76 .. 136
Digital Processing of Signals in Communications .. 241
Programmable Instruments .. 480

Contributors to this issue .. 10, 48, 90, 111, 142, 156, 176, 232, 248, 268, 273, 276, 282, 314, 319, 342, 354, 434, 454, 488, 544, 561, 570

CONTROL ENGINEERING
Dynamic testing of control systems .. 505

Council of the Institution 1977 .. 1

Degradation in the efficiency of medium-size parabolic antennas with propagation conditions .. 529
Design and characterization of a phase-locked v.h.f. land mobile receiver .. 67
The design of easily tested circuits using mapping and spectral techniques .. 321
Design of self-checking and fault-tolerant microprogrammed controllers .. 449
Developing interactive systems for the small machine environment .. 455
Digital high-frequency multipath propagation simulator 305
Digital instrument with histogram output .. 112
Domain tip memories .. 157
Dynamic testing of control systems .. 505

EAST ANGLIAN SECTION
Annual General Meeting .. 352, 432
followed by Microprocessors/microcomputers? .. 432
Microprocessors in action in the home .. 432
C.T. scanning of the brain and body .. 432, 486
Electronic ignition .. 432, 486
Development of miniature TV receivers .. 432, 486, 541
Switched mode power supplies .. 432, 486, 541
The engineer's contribution to a better world .. 486
Tropospheric scatter communications .. 541
Digital television—A logical choice? .. 542, 595
Compatible noise reduction in stereo broadcast systems 596
Developments in marine communications .. 596
Television reception techniques using adaptive arrays .. 596

EAST MIDLANDS SECTION
Annual General Meeting .. 88, 140
Advances in railway technology .. 352, 432
Future telephone switching .. 432, 486
Circuit analysis by computer as an aid to electronic circuit design .. 542
The engineer—a management/personnel view .. 542, 596
Experimental railway signalling system using microprocessors .. 596

EDITORIALS
Forty years' retrospect .. 89
Millimetric waveguides for telecommunications .. 141
Technology and the Annan Committee .. 193
And now, the next 25 years! .. 247

Notice and Agenda for the 16th Annual General Meeting of the Institution 408
A novel least-squares Fourier algorithm for decomposition of discrete, non-equidistant acquisition data **257**

Obituary 190, 428, 483

OCEANOGRAPHY
A new sub-bottom profiling sonar using a non-linear sound source **105**

Of current interest 78
Optimal codes for digital magnetic recording **172**
Optimum pulse shaping application of binary transversal filters used in satellite communications **249**

P.a.m.-microwave transmission in coloured Gaussian noise environment **167**
A phase-locked-loop phase-shifter for band-limited signals **117**
The physical basis of signal theory **49**
Picture recognition and analysis **33**
Practical realization of superdirective arrays **143**
Progress in applying optical fibre techniques **405**
Progress on the new 16A Plug and socket system 586
The prospects for sensory arrays and microprocessing computers in manufacturing industry **377**

RADAR
Circular polarization in radars: An assessment of rain clutter reduction and likely loss of target performance **11**
Round-off error analysis in digital m.t.i. processors for radar **59**
Marine radar today—a review **177**
Radar signal loss resulting from sub-optimal phase quadrature processing **207**
Aluminium foil provides radar protection 407
Recent trends in automotive radar **472**
New displays for old radar **571**

Radar signal loss resulting from sub-optimal phase quadrature processing **207**
RC active variable group-delay equalizers with independent Q and ω controls **445**

RECEIVERS
Design and characterization of a phase-locked v.h.f. land mobile receiver **67**
Noise equalization in h.f. receiving systems **195**
Tracer decoder—a receiver for radio navigation relay systems **261**
Synthesizer circuits for h.f. and v.h.f. Radios 294

Recent Accessions to the Library 84, 299
Recent trends in automotive radar **472**
Round-off error analysis in digital m.t.i. processors for radar **59**

SCOTTISH SECTION
Symposium on Teletext 88

SEMICONDUCTORS
The temperature dependence of the low-frequency characteristics of junction field-effect transistors .. **277**

Signal generators of the future 295
Simplified solutions of a cross-junction and specially truncated bends in parallel-plate waveguides .. **269**

Social implications of intelligent machines **393**

SOUTHERN SECTION
Communications for disabled persons 87
Electronics on Saturday 87
Surface acoustic wave devices 87
M.R.C.A. avionics 87
Annual General Meeting 87
Figaro—a communication system 87
A motorway and you 88
Communications—a personal view 432, 352
Electronic ignition 432
Error correction—a simple Golay decoder .. 432, 485
Quadraphony 432, 485
Symposium on The planning and design of the IBA's radio and television transmitter network .. 432, 485
Charge coupled devices for analogue signal processing 432, 485
Holographic memories 432, 485
Switched mode power supplies 432, 485, 541
Dolby noise reduction system 541, 595
The Southampton Hospital broadcasting system .. 541
Professional engineers and the trade unions 595
Microcomputers and their applications 595
MADGE—a microwave landing system based on interferometry techniques 595
Visual side of video 595

SOUTH MIDLANDS SECTIONS
Using a microprocessor—a design engineer's view .. 88
Electromagnetic compatibility in perspective .. 88, 140
The voltage to current transactor (VCT) 352, 432, 486
Surround sound reproduction systems 542
Design of modern radio receivers 542, 596
Automatic handwriting and speech recognition signals 596

SOUTH WALES SECTION
Digital applications in television 88
Colloquium on Modern trends in the assessment of cardio-pulmonary function 352, 431, 486
Quadraphonics 352, 432
Charge coupled devices and their applications .. 432, 486
New developments in automatic frequency response testing 542
Annual General Meeting 542
A digital private telephone exchange 542
Analysis for production control in an integrated steel works 542, 597
Satellite communications—'voices in orbit' 597

SOUTH WESTERN SECTION
Acoustical imaging and holography 87
Train control developments in British Rail 87
Automatic handwriting and speech recognition systems 87, 140
Electrical and avionic systems in helicopters .. 87, 140
Annual General Meeting 140
CEEFAX—A new form of broadcasting .. 352, 432, 486
Special effects on TV 432, 486
Software engineering applied to stored program control 432, 486
Page facsimile transmission 432, 486
Underwater acoustic imaging 542
Automatic landing systems in civil aircraft 596
From radio activity to radio science 596
Little is beautiful 596

Standard Frequency Transmissions .. 86, 135, 185, 233, 297, 344, 426, 482, 504, 584
Superselectivity in the azimuth and frequency dimensions **121**
Synthesis of broadband cylindrical monopole antenna with parasitic elements **229**
Synthesizer circuits for h.f. and v.h.f. radios 294

CHNICAL NEWS
Time synchronization using BBC television signals .. 135
New advanced training college for IAL 187
NPL takes over BCS management 187
Hewlett Packard progress 187
Safety of electrically operated laboratory equipment .. 187
Microwave links for Jodrell Bank interferometer .. 187
Hong Kong electronics industry 187
Assessing antenna systems 187

LEVISION
Experimental direct broadcast reception of 12 GHz television signals from the Canadian Communications Technology Satellite **234**
Television noise reduction system.. 406
Television signal-to-noise ratio before and after demodulation **555**
The television colour burst signal as a secondary frequency standard **567**

e temperature dependence of the low-frequency characteristics of junction field-effect transistors **277**
oposcatter communication in the North Sea 554
e transfer function synthesis of LC ladder networks .. **274**
acer decoder—a receiver for radio navigation relay .. **261**
rminal and repeater equipment for the first operational waveguide system **487**

HAMES VALLEY SECTION
Signal processing in conjunction with the H-P 3000 computer 87
Development of interactive computer-aided design of closed-loop control systems 87
Annual General Meeting 87, 140
L.s.i. logic system design 87, 140
Microprocessor systems—principles and applications 352, 432
Viewdata 432, 485
Colloquium on the Design of hi-fi audio power amplifiers 541, 595
EMI C.T. scanner 595

The use of phase-control height diversity for 11 GHz radio systems **101**

Vacation School Report: The practical use of control theory 538

WAVEGUIDE
Simplified solutions of a cross-junction and specially truncated bends in parallel-plate waveguides **269**

WEST MIDLANDS SECTION
Concorde electronics 88
Annual General Meeting 88, 140
Newspaper into the 80's 88, 140
The spirit of nineteen-o-one 352, 432
Energy resources and the mining engineer .. 432, 486
Automobile electronics 541
Multiprocessors for use in telephone systems 541
Technology in the service of the police 541, 596
The Dolby noise reduction system 596

YORKSHIRE SECTION
Annual General Meeting 140
The professional, the amateur and the microprocessor 352, 432
Optical fibre communication systems 486
Nuclear power 486
Advances in railway signalling 542

Index of Persons

Names of authors of papers or articles published in the volume are indicated by bold numerals for the page reference.

Abbott, A. R. 298
Ackroyd, B. R. 139
Adams, Wing Cdr. W. 589
Ainge, Sqn Ldr D. R. 427
Allaway, Dr P. A. **3, 89**
Alvey, D. 189
Amakyi, R. K. 591
Anderson, Dr A. P. 100
Andrews, I. 243
Angelou, G. 483
Armstrong, P. R. 100

Bound Volumes of the Journal

Limited numbers of the following bound volumes are available:—

Volume 6 (1946)	£5·50	Volume 31 (January-June 1966)	£5·50
Volume 7 (1947)	£5·50	Volume 32 (July-December 1966)	£5·50
Volume 9 (1949)	£5·50	Volume 33 (January-June 1967)	£5·50
Volume 10 (1950)	£5·50	Volume 34 (July-December 1967)	£5·50
Volume 12 (1952)	£5·50	Volume 35 (January-June 1968)	£5·50
Volume 17 (1957)	£5·50	Volume 36 (July-December 1968)	£5·50
Volume 18 (1958)	£5·50	Volume 37 (January-June 1969)	£5·50
Volume 19 (1959)	£5·50	Volume 38 (July-December 1969)	£5·50
Volume 21 (January-June 1961)	£5·50	Volume 39 (January-June 1970)	£5·50
Volume 23 (January-June 1962)	£5·50	Volume 40 (July-December 1970)	£5·50
Volume 24 (July-December 1962)	£5·50	Volume 41 (January-December 1971)†	£6·25
Volume 25 (January-June 1963)*	£5·50	Volume 42 (January-December 1972)†	£7·00
Volume 26 (July-December 1963)	£5·50	Volume 43 (January-December 1973)	£8·50
Volume 27 (January-June 1964)	£5·50	Volume 44 (January-December 1974)	£10·00
Volume 28 (July-December 1964)	£5·50	Volume 45 (January-December 1975)	£13·00
Volume 29 (January-June 1965)	£5·50	Volume 46 (January-December 1976)	£15·00
Volume 30 (July-December 1965)	£5·50	Volume 47 (January-December 1977)	£15·00

Volumes 1–5, 8, 11, 13–16, 20 and 22 are now out of print.

* In January 1963 the *Journal* was given the title *The Radio and Electronic Engineer*. Prior to this date it was entitled *The Journal of the British Institution of Radio Engineers.*

		Postage and Packing extra	
		Great Britain	*Overseas*
† Bound volumes of *Journal* and *Supplement* combined	£8.25	£1.00	£1.00
Bound volumes of *Supplement* only	£3.55	60p	60p

Members' own copies of the Journal can be bound into volumes at a cost of £5.50 per volume (postage and packing extra: Great Britain £1.20, Overseas £1.20).

The appropriate *Journals* should be sent to the Publications Sales Department, IERE, 99 Gower Street, London WC1E 6AZ.

SUBSCRIPTION RATES FOR THE JOURNAL, 1978

Home and Overseas: 1 year £20.00	2 year £36.00	3 year £52.00	Single copies £1.80
U.S.A. and Canada: 1 year $49.00	2 year $88.00	3 year $124.00	Single copies $4.25

INFORMATION FOR AUTHORS

Papers published in *The Radio and Electronic Engineer* are listed or abstracted as follows:

Title listings: 'British Technology Index'; 'Current Papers' (Electrical and Electronic Engineering, Physics, and Computers and Control); 'Current Contents'; 'Science Citation Index'; ASCA.

Abstracted fully: 'Science Abstracts' (Physics, Electrical and Electronics, and Computer and Control); 'Referativni Zhurnal'.

Abstracted selectively: 'Chemical Abstracts'; 'Computing Reviews'; 'Acoustics Abstracts'; 'Solid State Abstracts Journal'; 'Nuclear Science Abstracts'.

Offers of papers and short contributions for consideration for publication in *The Radio and Electronic Engineer* or for reading at meetings are welcomed and should be sent to the Institution. The general requirements for manuscripts, illustrations etc. are specified in the leaflet 'Guidance for Authors', a copy of which will be sent on request. Submission of a synopsis prior to completion of the full paper, though not essential, can save time and unnecessary effort on the part of an intending author.
